Approved For Release 2006/04/18: CIA-RDP82-00457R013400060004-7 SECRETA/CONTROL/US OFFICIALS ONLY 25X1 · · 2 · · · 25X1 7. At moon on 12 June, with boxes left the ration supply office at the eastern railroad station。(2) 8. In mid-lay, six new, permanent, two-story barracks buildings were under construction in the area of the former Fallschirmjaeger Lager (parachutist camp) north of Pappel Alloe. The roofs of two of the buildings were being erected, while masonry work of the other buildings was 50 percent 25X1 complete. It was rumored that the military hospital in the Mans Schemm Schule on Moexer Strasse was scheduled to be transferred to these buildings. 25X1 At 4 p.m. on 6 June, a troop train carrying 12 x 76-mm guns and trucks 25X1 passed through Stendal proceeded toward Wittenberge (M 53/Y 69). Source learned that other troop trains had passed through Stendal proceeding toward Wittenberge during the night of 5 July. (5) AA gun emplacements noticed in the Standal area on 2 June included: one north of the Borstel airfield; one between the Hindenburg Kaserne and the Albrecht der Paor Kaserne; and one near the Noues Lager with six 20-rm AA guns and the personnel quartered in 5 large and 7 small tents. Cource

> 32. On 10 June, intensive construction work continued at the Heues Lager southeast of the Porstel airfield. One permanent low building was ready to be occupied and the brickwork of other low buildings was completed. (6) Source learned that a major construction project of ferm-concrete was scheduled northwest of the Mindenburg Kaserne on Schiller Strasse. (7)

believed that he also saw light AA guns in the other emplacements. (6)
